

# FISH 'N' TIPS

*Never let the truth stand in the way of a good fishing story!*

**May 2021**

***Somerset Socials***

**PRESIDENT'S  
REPORT  
May 2021**

Hello and welcome, Not a great deal to report on this month, but in saying that, I would like to welcome our new member couples that have signed up with us in the past couple of months.

We have only had a short period of time to get to know a few people at our barbecues and our Somerset Dam away competition, but this had been a great success in getting to know you and some great storeys have been swapped around and friendships formed.

I will briefly mention our General Meeting on Monday the 10th of May at 7:00 PM at the RSL. We have a guest speaker in our own Gary Voss from VMR, doing an in house spiel on "Around Bribie" after the meeting, so that should be interesting.

Our next away trip to Maroochydore door on the 21st to the 23rd of May is fully booked out and as always promises to be a great weekend. Our last barbecue went well with pie and peas day and nearly 60 people attending.

As I mentioned at the barbeque thank you to all those involved in both catering and set up. Also thank you to the Oostenbroeks for selling raffle tickets and passing out members draw tickets for the past three months as this chore now passes to our raffle roster members.

Fishing has been very ordinary outside this month due to weather and people's busy lifestyle not giving them time to fish and now I see the weed is back inside the passage to further complicate matters.

That is about it from my desk so hope to see you all at the meeting or Maroochy.

*Keith Kable*

**President**

*The Bribie RSL Fishing Club provides a real service to the community by extending the hand of friendship not only to*

*fishermen and women with a common interest, but also to the many residents of Bribie Island and the surrounding area who would otherwise lead a lonely existence. Currently our club has approximately eighty members of whom only twenty to thirty are regular fisher people.*

*Without the ability to raise the necessary funds, our club would not be able to exist, so through the generosity of the Bribie RSL Club, members of our club are able to raise the finances required by conducting meat tray raffles on a Thursday night from June until January of each year. In addition, the Bribie Island RSL Club supports us in very substantial and significant ways – use of facilities at the Sports Club for our monthly presentation BBQ's, use of the ANZAC room for our monthly general meetings and very importantly, a \$25 voucher each month for our member's draw. Many thanks Bribie Island RSL Club – we really do appreciate your support.*

# Monthly Competition April 2021

Total No of fish 93 Inshore 63 offshore 25 Junior 5

## Junior Inshore

Place	Name	Points	Fish
Winner	Dagleish Ethan	35	5

## Ladies inshore

Place	Name	Points	No of Fish
Winner	Blythe Rosemary	19	2

## Men's Inshore

Place	Name	Points	No of fish
Winner	Plant Trevor	113	19
R/up	Winnett Ron	87	14
3rd	Casey John	68	12
4th	Phillips Michael	41	10
5th	Patterson Richard	4	2
5th	Carey Bruce	4	4

## Men's Offshore

Place	Name	Points	No of Fish
Winner	Mc Gruddy Peter	168	14
R/up	Chauhan Amrat	81.525	5
3rd	Wicks John	38.7	3
4th	Phillips Michael	34.9	3

## Lucky Draw

Name
Patterson Richard
Carey Bruce

## April Monthly Competition - (Fri 26 March to Fri 30 April 2021)

### Offshore Men's

Good to see Peter McGruddy with a good catch Offshore With 168 points and 14 fish.

There were only 4 who managed to fish.

### Inshore Ladies

Rosemary was the only one to fish during the month.

### Inshore Men's

Trevor Plant edged Ron Winnett out again this month with 19 fish and 113 points.

### We have a new club record for a dusky Flathead and Flounder

The last record for a Dusky flathead was recorded in 1998 by my brother Barry Winnett who was Treasurer for the club at the time. It took 23 years to beat. **John Casey** with the help of his trusty skipper and skilful netter caught this 4.7 Kg monster on one of our weekly trips in the passage in one of our secret spots. To top this off he also caught a large tooth flounder which also is a new club record [.5 kg ]

Mike Phillips' grandson caught 5 bream all over the half Kilo, plus a nice Dusky Flathead on one of his fishing days

There is one sad story about Michael Phillips who almost caught a Snapper at the drop off. His estimate was 4 to 5 Kg while fishing with Glen, his son-in-law. It was late in the afternoon when the line took off heading for the Bribie Bridge. After taking most of his line Mike finally turned the fish and after a long fight to get the fish to the boat, he lost it while trying to net it. ( Bad Luck Mike )

### Next event Maroochydore Fri 21th to sun23th may 2021

**Old Club Record 4.45 kg**

**New Club Record 4.7kg**

## Somerset Fresh Water Fishing Competition

21 April 2021

### Results

<b>WINNERS</b>		<b>Heaviest Fish</b>	<b>Fish Weight (Kg)</b>
1st	Tammy Oostenbroek	Yellow Belly	1.57
2nd	Bruce Carey	Yellow Belly	1.54
3rd	Tammy Oostenbroek	Yellow Belly	1.5

1st	Tammy Oostenbroek	Yellow Belly	3.07
2nd	Bruce Carey	Yellow Belly	2.435
3rd	Frank Oostenbroek	Yellow Belly	2.18

<b>LUCKY DRAW</b>
John Wicks

### **Number of Fish Weighed In**

<b>NAME</b>	<b>Fish Species</b>	<b>Fish Weight (Kg)</b>
Tammy Oostenbroek	Yellow Belly	1.57
Bruce Carey	Yellow Belly	1.54
Tammy Oostenbroek	Yellow Belly	1.5

Keith Kable	Bass	1.035
Bruce Carey	Bass	0.895
Frank Oostenbroek	Bass	0.7
Frank Oostenbroek	Bass	0.62

Trevor Bourke	Catfish (freshwater)	0.97
Keith Kable	Catfish (freshwater)	0.88
Frank Oostenbroek	Catfish (freshwater)	0.76

Ron Winnett	No Weigh in
John Davis	No Weigh in
John Wicks	No Weigh in
Barbara Wicks	No Weigh in
Allan Woodward	No Weigh in
Steve King	No Weigh in

## **Know Your Committee**

Well we uncovered a few very interesting facts about our revered President Keith in last month's Newsletter. So who is next? Well, as foreshadowed at the Club's last meeting, next in line for this riveting series is none other than our second in command, Richard Patterson. Richard reckons that his life story is boring. Well we reckon that may be true of the official version, but we suspect that the reality of the unofficial actual version would make of some great reading! Anyway, here is the official version of his story!

### **Richard's Story**

Richard grew up in the Granville area of the Western Suburbs of Sydney.

He attended primary and secondary school in the Western Suburbs . As a young bloke he was a keen sportsman, playing both Rugby League in the Winter and Cricket in the Summer. Whilst he is modest about his sporting achievements, it is worth noting that in rugby league, whilst mostly playing for Granville, he played a season in the President's Cup for Western Suburbs Rugby League team. Whilst Richard's rugby league career ended in his 20s, he continued to play A grade cricket into his 40s.

Richard has two other bothers and one sister. They continue to live in the Sydney/Wollongong area. It was as a young bloke, that Richard first developed his lifetime love of fishing, when his father took him fishing in the Hawkesbury River. Richard became pretty good at catching the bream, jewfish and other species that inhabit that massive waterway.

After leaving high school, Richard commenced working for the NSW Mains Roads Division in the Asphalt Roads Section of such division where eventually rose to the position of a Roads Supervisor.

Richard was first married at the young age of 21. He had three sons with his first wife, however that marriage unfortunately ended when he and his then wife separated. Despite the ending of his first marriage, Richard maintained and continues to maintain an excellent relationship with his sons from that marriage. After the demise of his first marriage, Richard met and subsequently formed a relationship with his present wife, the lovely Tina. Tina is of course, well known in the Fishing Club both as Richard's wife and in her own right as an accomplished fisherman/woman/fisher or whatever the politically correct term is these days. (Luckily, for Richard (and I assume, luckily for Tina, also!), Richard and Tina formed a relationship approximately 38 years ago in Sydney which has continued unabated until the present.

When they came together as a couple, Tina had a daughter from her previous marriage, whilst Richard had his three sons. All four children formed a happy mix which continues until the present day and has morphed into 18 grandchildren on top.

Like Richard, Tina also hails from the Western Suburbs of Sydney, coming in her case, from the Greystanes area of Sydney. Richard and Tina spent approximately 20 years of happy life together in Sydney before finally moving to Bribie Island.

Prior to deciding to live on Bribie, the couple had spent many happy days holidaying in the Sunshine Coast/ Bribie Region.

The decision to move to Bribie was made approximately 18 years ago. Richard reckons that apart from his decision to link up with Tina, it was the greatest decision of his life as it got them both out of the ever expanding Sydney sprawl and whilst he and Tina, profess to an abiding love of Sydney, they have no regrets about having escaped the traffic snarls and attendant problems of life in the City.

At the time of the decision to move to Bribie on a permanent basis, Richard had taken long service leave from his job with Main Roads Division, so it was not a decision that was taken lightly and indeed, such decision was met with some angst from his superiors in Main Roads, who were not happy with the prospect of losing an experienced operator like Richard from their ranks.

Before electing to choose Bribie as their home, Richard tells me that he and Tina first toyed with the idea of moving into an apartment at Maroochydore before finally purchasing a waterfront duplex unit in Bowsprit Crescent next door to Peter and Pam McGruddy's home.

After joining the Fishing Club in 2004 Richard was lucky enough to get a berth on board Frank Oostenbroek's boat spending many enjoyable hours fishing offshore with Frank when big fish catches off the island were the norm. Since joining the Club, Richard has spent a number of years in various positions on the Club Committee including Assistant Weighmaster, Secretary and now Vice President.

After moving to Bribie, Richard initially took up employment as a Construction Manager with the Redcliffe and Brisbane City Councils before seeing the light and getting employment on the island as a taxi driver with Bribie Island Taxis. He reckons that working as taxi driver was a great way to meet people, many of whom remain his friends until the present day.

Richard finally fully retired from the active workplace in 2014. It was a decision that he does not regret. He and Tina recently moved from their duplex unit in Bowsprit Court into a house in Marina Boulevard next door to Amrat & Carmel Chauhan. Since moving to their new home, Richard and Tina have been engrossed in the task of landscaping and setting up new gardens which I am told, they thoroughly enjoy.

## ***The Photo Competition***

The quality of your photos is definitely improving because the judges are having a hard time trying to differentiate between the photos. The Judges were asked to score each photo on the following:

- General Appeal / Presentation
- Quality of the Photo / lighting/ Exposure
- Focus
- Originality

Adherence to the Theme ***“Fences and/or Railings”***

Well it was extremely close with “Fence Whiskers” beating three second places by just one point.

Don’t Fence Me In, Morning Shadows, and A Fence full of Promise all getting second place.

Points for Originality went to Rubber Fence and Barbara’s Fence. The Dangerous Beast didn’t qualify as there was too much use of Photoshop and Richard was in a cage not a fence. Good Try though.

The Jetty was also a great use of the Leading Lines which drew you in .

**Thank you for all your entries and Congratulations to Phil Enright for his winning Entry.**

The Theme for May is ***“Old and Rusty”***

# Disorder in the American Courts Re-Visited

These are from a book called Disorder in the American Courts, and are things people *actually said in court, word for word*, taken down and now published by court reporters who had the torment of staying calm while these exchanges were actually taking place.

ATTORNEY: Are you sexually active?

WITNESS: No, I just lie there.

---

ATTORNEY: What gear were you in at the moment of the impact?

WITNESS: Gucci sweats and Reeboks.

---

ATTORNEY: This myasthenia gravis, does it affect your memory at all?

WITNESS: Yes.

ATTORNEY: And in what ways does it affect your memory?

WITNESS: I forget.

ATTORNEY: You forget? Can you give us an example of something you forgot?

---

ATTORNEY: What was the first thing your husband said to you that morning?

WITNESS: He said, 'Where am I, Cathy?'

ATTORNEY: And why did that upset you?

WITNESS: My name is Susan!

---

ATTORNEY: Do you know if your daughter has ever been involved in voodoo?

WITNESS: We both do.

ATTORNEY: Voodoo?

WITNESS: We do.

ATTORNEY: You do?

WITNESS: Yes, voodoo.

---

ATTORNEY: So the date of conception (of the baby) was August 8th?

WITNESS: Yes.

ATTORNEY: And what were you doing at that time?

WITNESS: Uh.... I was getting laid!

---

ATTORNEY: She had three children, right?

WITNESS: Yes.

ATTORNEY: How many were boys?

WITNESS: None.

ATTORNEY: Were there any girls?

WITNESS: Are you shittin' me? Your Honour, I think I need a different attorney. Can I get a new attorney?

**ATTORNEY: How was your first marriage terminated?**

**WITNESS: By death.**

**ATTORNEY: And by whose death was it terminated?**

**WITNESS: Now whose death do you suppose terminated it?**

---

**ATTORNEY: Can you describe the individual?**

**WITNESS: He was about medium height and had a beard.**

**ATTORNEY: Was this a male or a female?**

**WITNESS: Guess.**

---

**ATTORNEY: Is your appearance here this morning pursuant to a deposition notice which I sent to your attorney?**

**WITNESS: No, this is how I dress when I go to work.**

---

**ATTORNEY: Doctor, how many of your autopsies have you performed on dead people?**

**WITNESS: All my autopsies are performed on dead people. Would you like to rephrase that?**

---

**ATTORNEY: ALL your responses MUST be oral, OK? What school did you go to?**

**WITNESS: Oral.**

---

**ATTORNEY: Do you recall the time that you examined the body?**

**WITNESS: The autopsy started around 8:30 p.m.**

**ATTORNEY: And Mr. Denton was dead at the time?**

**WITNESS: No, he was sitting on the table wondering why I was doing an autopsy on him!**

---

**ATTORNEY: Are you qualified to give a urine sample?**

**WITNESS: Huh....are you qualified to ask that question?**

---

**And the best for last:**

---

**ATTORNEY: Doctor, before you performed the autopsy, did you check for a pulse?**

**WITNESS: No.**

**ATTORNEY: Did you check for blood pressure?**

**WITNESS: No.**

**ATTORNEY: Did you check for breathing?**

**WITNESS: No.**

**ATTORNEY: So, then it is possible that the patient was alive when you began the autopsy?**

**WITNESS: No.**

**ATTORNEY: How can you be so sure, Doctor?**

**WITNESS: Because his brain was sitting on my desk in a jar.**

**ATTORNEY: I see, but could the patient have still been alive, nevertheless?**

**WITNESS: Yes, it is possible that he could have been alive and practicing law.**

## Somerset

### Fresh Water Fishing Competition

You have got to wonder why some of our members get excited as they prepare for another frustrating adventure in the leadup to our biannual fresh water fishing competition. This has to be one of the most difficult forms of fishing in Australia. Trout fishing in Victoria or Tasmania is easy compared to Bass fishing in our impoundments. There are times when the bass almost jump into the boat, but I have got to admit that most of the time it is just a hard slog.

Having said all that, the number of members that come to Somerset each year is increasing and to top it off, we are getting more and more ladies who really enjoy getting back to nature. Don't think for a second that all the ladies are out in the boats trying their luck, because it is very rare that you will be able to witness a scene like that. No! It is all about the peace and quiet, as you listen to the birds as the sun slowly rises over the misty waters. The small and fluffy rabbits scurrying away and the multitude of eagles and hawks soaring over the treetops in search of that morning meal, and of course the social life help to make your stay even more enjoyable. I am sure that the main reason that our members make their way out to the Dam is the social life. But more about that later.

There are those who find this type of fishing relaxing, but there are also those who just come for the challenge. Just the thought of beating Keith and Trevor in the competition is reason enough to brave the freezing cold mornings and sit in the confines of a little tinny hour after hour waiting for some monster to snatch that little shrimp that is dangling on the end of your hook ten meters below. That is really exciting.

I have to admit that Keith and Trevor are seen as the gurus of Somerset. They normally take their caravans to the dam approximately three days before the competition, which gives them ample time to see where the fish are. The secret to catching bass is to gather a large stock of fresh water shrimp. Now Keith and Trevor are not the nasty duo that you may think, because they do share the information with the other fishermen and women; in fact they have been known to offer some of these precious shrimp to the uninitiated, as well as the information on where and how to catch these illusive fish. Having said that, Keith and Trevor do normally win the majority of prizes, but this year things were going to be a bit different.

It was early on Wednesday morning when Keith and Trevor were seen heading out to collect their shrimp but unknown to them, the “Master Team” had also set out from the boat ramp on the other side of the spit. The “Master Team” consisted of Bruce Carey other wise known as the “The Boat Owner” Frank Oostenbroek, the “Has Been” and their Secret Weapon, Tammy Oostenbroek also known as “The Marlin Slayer”. It was Bruce who originally set up this team to show once and for all that the “Somerset Gurus” were not invincible.

Photo by Barbara Wicks

The stealth of Bruce’s Yamaha four-stroke motor and the camouflaged buff around his face would mean that the Master Team could quietly collect their fresh water shrimp and head out to their secret spot without being seen.

The plan worked without a hitch and it wasn’t long before Bruce pulled in a massive Yellow-Belly after a tremendous fight which almost saw Bruce being pulled overboard by the sheer size and power of this piscatorial monster.

Meanwhile, on the other side of the boat, Tammy was working on her own special technique and it was just a few minutes later when Tammy's rod bent over that hard that the tip of the rod snapped in two. Without so much as an "Oh Crap" she continued the fight until the exhausted fish lay breathless on the surface of the dam. It was the sheer determination and amazing experience as a Marlin Master that aided Tammy in capturing the Biggest Yellow-belly of the competition.

Frank did manage to catch two average Bass and a Eel-Tailed Catfish, which made him excited for a short while, until Tammy ripped out another massive Yellow-belly even though the tip of her fishing rod had been modified and cut off with a pair of side cutters.

A few hours later, the fishing had slowed down considerably and most of the shrimp had been eaten by those Piranha like monsters of the deep called, Barred Grunter. Amazingly, and although only very small, these ferocious and spiny serpents manage to devour the shrimp in less than a second.

The Master Team really didn't have much of an option but to sneak away from their secret spot and empty one of their hidden shrimp pots and hope that some other contestant didn't steal their mark.

Luckily the Master Team managed to collect another few shrimp from the pot, but there were only just enough for another fish or two before all their efforts could end up in vein. It was the superior skill and seamanship that allowed Bruce to quickly navigate back to their honey hole and tie up in between the trees.

No Sooner had Bruce cast his line overboard, when another massive fish smashed his poor defenceless little shrimp. With the skill of the true professional, Bruce stayed calm and slowly worked a beastly bass to the surface where Frank skilfully slid the net underneath the fish. It was now nearly one o'clock and all the shrimp were gone so the Master Team headed back with Bruce in control.

Well the time had come to see how the Master Team would fare against the Somerset Gurus. Wouldn't it be amazing if this Tremendous Trio could actually win just one of the many prizes on offer. One by one the competitors gathered at the weigh-in station. The Weighmasters Ron and John had found the fishing exceptionally difficult and lucked out on catching anything at all, and even though they had plenty of excuses, they were ready to do their duty and weigh in all the fish.

With nothing but the best equipment at hand and the combined skill of many years in the job, this capable couple managed to weigh in all of the fish in just a few minutes. Now it was down to using their mathematical expertise to figure out who had one the competition. All of the girls had gathered on the one table and were obviously extremely anxious to find out, who and if, anyone had been able to take just one of the prizes away from the Somerset Gurus.

Ron and John had finally worked out all the prizes and the results were unbelievable. Not only did the Master Team beat the Somerset Gurus but they scooped the pool. Keith and Trevor had tried their best, but their hopes of winning the competition had been totally decimated when the Weigh Masters read out the final results. Can you believe that not only did the Master Team win the competition but they managed to win every prize leaving Trevor and Keith in total disbelief. Years and years of knowledge had amounted to nothing as the tremendous trio who had only just been formed had blown the competition out of the water.

Tammy had won The Largest Fish Winner, The Largest Fish 3rd Place, and the Heaviest Bag.

Bruce walked away with The Largest Fish 2nd place, the 2nd Heaviest Bag and the biggest smile he could manage given the tremendous amount of stress of being the Team Leader.

Desperate and boatless, Frank was happy just to be invited to join the Team and walk away with the 3rd Heaviest Bag.

A Very happy John Wicks won the Lucky Draw which just proves that you have to be in it to win it.

The whole competition was well run and enjoyed by all who participated. Everyone agreed that a two day competition would have been great but with the current influx of local tourists, we were lucky to be able to secure the accommodation for just one night.

Well as I mentioned earlier, that may have been the end of the competition but most of had come for the social atmosphere and the fellowship of our members.

We had only just arrived at the park when we spoke to Robyn and Julie who informed us that Barbara and John Wicks had invited everyone over for a few drinks at 4 o'clock that afternoon. What a great way to start a competition. Everyone had the opportunity to meet the whole crew over a few well deserved drinks and some lovely snacks.

A couple of small steaks for dinner and it was back to Trevor and Keith's caravan for an evening nightcap where we were joined by three possums who managed to steal a few scraps.

The safari tents are warm and comfortable but there are a couple of areas where they could be improved.

There are no cooking or washing up facilities and the only water is from an outside tap. Parking is available but is at least seventy meters away and if you are one of those ladies who need to go for a toilet stop in the middle of the night, it is three hundred meter walk with very little light to guide you.

The view through the trees leads you over the water and if you wanted to sleep in you would find it quite difficult as the public boat ramp is right next door.

We have stayed in the tents on three separate occasions and enjoyed it each time. They are quite good value for \$75:00 per night.

## Where does Carbon Dioxide Really Come From?

*Ian Rutherford Plimer* is an Australian geologist, professor emeritus of earth sciences at the University of Melbourne, professor of mining geology at the University of Adelaide, and the director of multiple mineral exploration and mining companies.

He has published 130 scientific papers, six books and edited the Encyclopaedia of Geology.

**If you've read his book you will agree; this is a good summary.**

The volcanic eruption in Iceland. Since its first spewing of volcanic ash has, in just **Four Days, Negated Every Single Effort** you have made in the past five years to control CO2 emissions on our planet - all of you.

Of course, you know about this evil carbon dioxide that we are trying to suppress - it's that vital chemical compound that every plant requires to live and grow and to synthesize into oxygen for us humans and all animal life.

I know....it's very disheartening to realize that all of the carbon emission savings you have accomplished while suffering the inconvenience and expense of driving Prius hybrids, buying fabric grocery bags, sitting up till midnight to finish your kids "The Green Revolution" science project, throwing out all of your non-green cleaning supplies, using only two squares of toilet paper, putting a brick in your toilet tank reservoir, selling your SUV and speedboat, vacationing at home instead of abroad, nearly getting hit every day on your bicycle, replacing all of your 50 cent light bulbs with \$10.00 light bulbs..... well, all of those things you have done have all gone down the tubes in just four days.

The volcanic ash emitted into the Earth's atmosphere in just four days - yes, FOUR DAYS - by that volcano in Iceland which has totally erased every single effort you have made to reduce the evil beast, carbon. And there are around 200 active volcanoes on the planet spewing out this crud at any one time - EVERY DAY.

I don't really want to rain on your parade too much, but I should mention that when the volcano Mt. Pinatubo erupted in the Philippines in 1991, it spewed out more greenhouse gases into the atmosphere than the entire human race had emitted in all its years on earth.

Yes, folks, Mt. Pinatubo was active for over one year - think about it.

Of course, I shouldn't spoil this 'touchy-feely tree-hugging' moment and mention the effect of solar and cosmic activity and the well-recognized 800-year global heating and cooling cycle, which keeps happening despite our completely insignificant efforts to affect climate change.

And I do wish I had a silver lining to this volcanic ash cloud, but the fact of the matter is that the bush fire season across the western USA and Australia this year alone will negate your efforts to reduce carbon in our world for the next two to three years. And it happens every year. Just remember that your government just tried to impose a whopping carbon tax on you, on the basis of the bogus 'human-caused' climate-change scenario.

Hey, isn't it interesting how they don't mention 'Global Warming' anymore, but just "Climate Change" - you know why?

It's because the planet has COOLED by 0.7 degrees in the past century and these global warming bull\*\*\*\* artists got caught with their pants down. And, just keep in mind that you might yet be stuck with an Emissions Trading Scheme - that whopping new tax - imposed on you that will achieve absolutely nothing except make you poorer.

It won't stop any volcanoes from erupting, that's for sure.

Owners of Browns Mitre 10 on Bribie Island, Michael and Samantha Brown have very kindly agreed to support us by donating a \$20 gift card each month to be used as a raffle prize at our monthly general meeting. In addition, they have offered a 5% discount on all fishing, marine and bait goods when members show their Bribie Is-

If members provide a Wilsons product number for the item they wish to purchase and it is not in store, Michael will order it for you. This is a great service. In addition, Michael has offered to provide better pricing for group buys or for certain high turnover items. Thank you, Browns Mitre 10 Bribie Island.
